Circle of Security is a relationship based 8 week parenting education program, integrating over 50 years of early childhood research, which can help you as a parent to:

- Understand your child’s emotional world—learn to read the emotional need that lies beneath your child’s behavior
- Support your child’s ability to manage their own emotions and improve their confidence and self esteem
- Strengthen your skills in observing and connecting with your child and learn effective ways to respond to their emotions and behaviour.

This program is available to any parent with children 0 to 5 years of age and a DVD will be used throughout the program.
